Renowned for their exceptional nutritional value, European organic canned tomatoes offer an array of health benefits. Canned at the peak of ripeness, these tomatoes are a rich source of lycopene, a powerful antioxidant known for its potential to reduce the risk of certain chronic diseases and promote heart health. Additionally, they are naturally low in calories and provide essential nutrients such as vitamin C, potassium and fibre, making them an ideal choice for those seeking to maintain a healthy balanced diet.

"The commitment of ANICAV members is to offer consumers premium, healthy products that elevate their dining experiences," says Giovanni De Angelis, General Director at ANICAV. "With this campaign, we invite Danish, Swedish and Dutch consumers to savour the rich flavours and nutritional benefits of these exceptional ingredients, while supporting a healthier lifestyle."

Cooking enthusiasts and health-conscious individuals can now savour the delectable taste and nutritional advantages of Red Gold organic canned tomatoes from Europe in a range of culinary applications, from savoury sauces to vibrant soups and stews.

"By choosing European and Italian organic canned tomatoes, consumers can not only elevate their dishes but also enjoy the peace of mind that comes with knowing they are using wholesome, high-quality ingredients," adds Giovanni De Angelis.

The increase in production and sales of European organic canned tomatoes reflects ANICAV's ongoing dedication to providing consumers with natural and sustainably sourced products, further enhancing their cooking and well-being.
